100. _____

Tutor Hint: Sight words are words that learners recognize instantly without having to stop to figure them out. The more proficient readers are, the more words they recognize by sight. Learning common sight words will help improve reading speed and comprehension.

Activity: Sight Word Concentration

1. Make a set of Concentration cards by writing selected sight words on index cards. There must be two of each word.
2. Lay all of the cards face down on the table.
3. The object of the game is to find as many pairs as you can. Turn over any two cards. Say the words from the cards out loud. Take the cards if the pair matches. Turn the cards back over if they do not match. Play continues until all the cards are matched. The winner is the player with the most cards.
4. For an extra challenge, create a sentence for each of your matched words.
